# PSYCHOLOGICAL SAFETY GLOBAL INSIGHTS

Discover the revealing insights shaping workplace cultures worldwide in 2022.

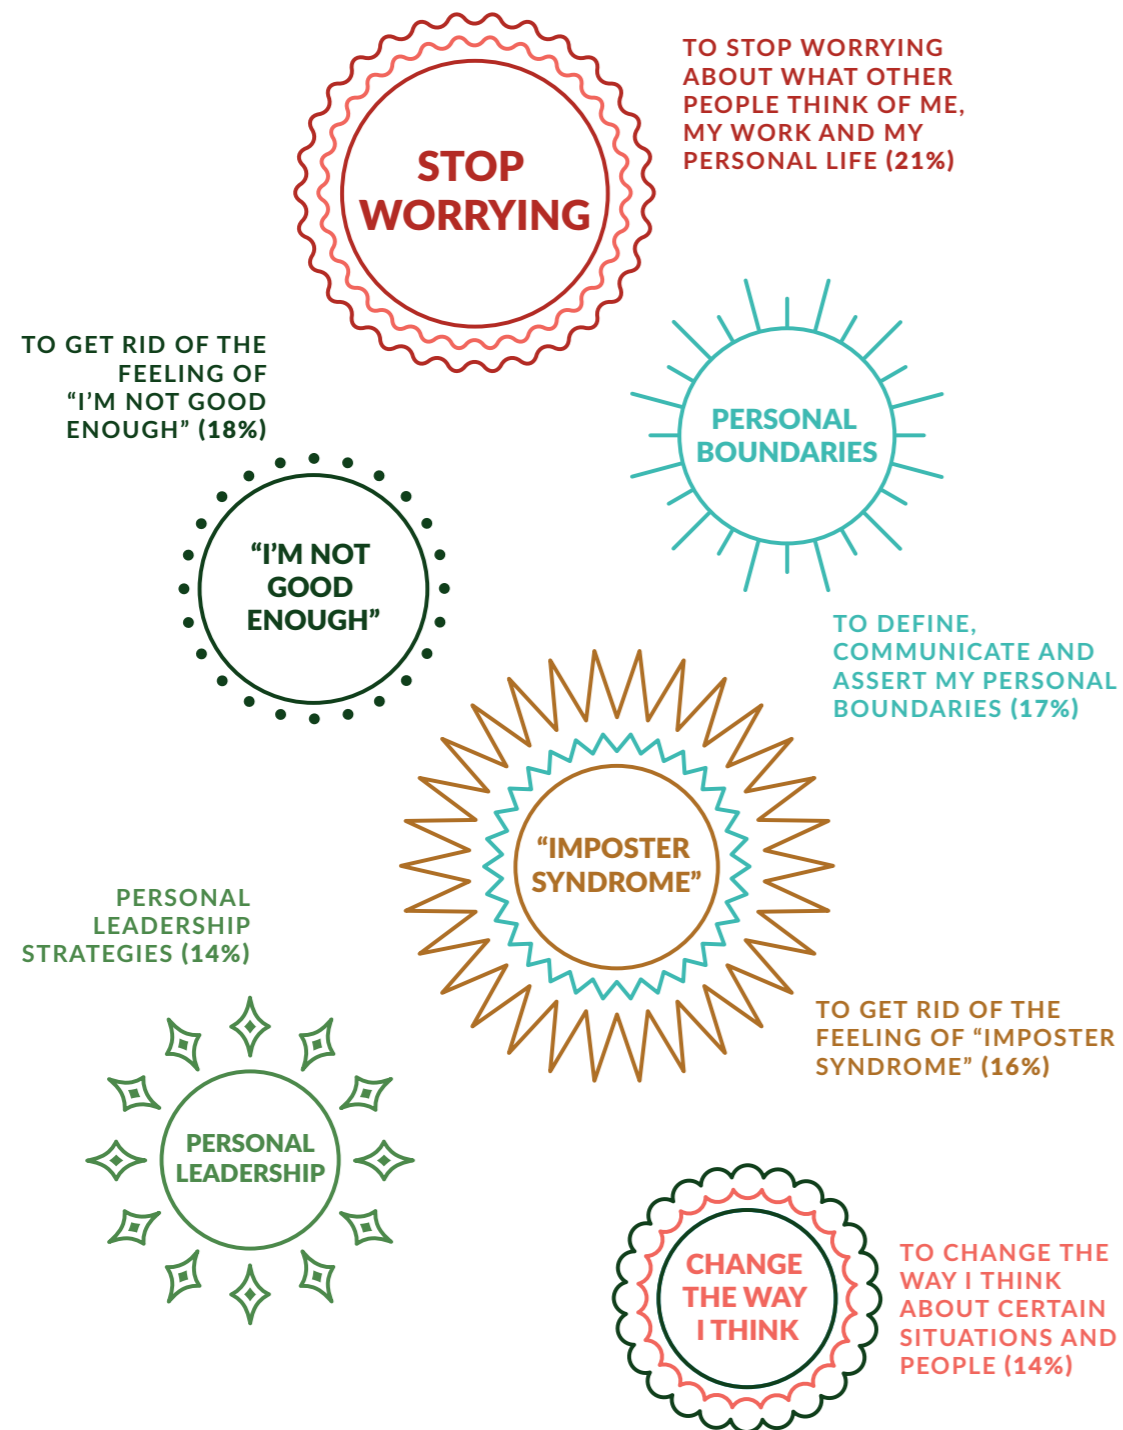

This exclusive report presents the compelling findings from our informal global study, conducted on LinkedIn, offering a unique snapshot of real-world perspectives on psychological safety and workplace cultures.

Hear directly from professionals across various industries, sectors and locations as they share their experiences with workplace culture and psychological safety.

**“What do you (employees) want and need to be able to bring your whole self into the workplace?”**

In order of importance, these are the top 6 things they said.

**“Do you worry about what your colleagues think of you, the work you produce and your personal life?”**

**58%** responded yes.

**“Are you able to manage your emotions as they arise – when something negative or unwanted happens at work?”**

**33%** responded no. That is a third of your workforce.

**“Do you ruminate and stew over things that happened at work – when you are at home?”**

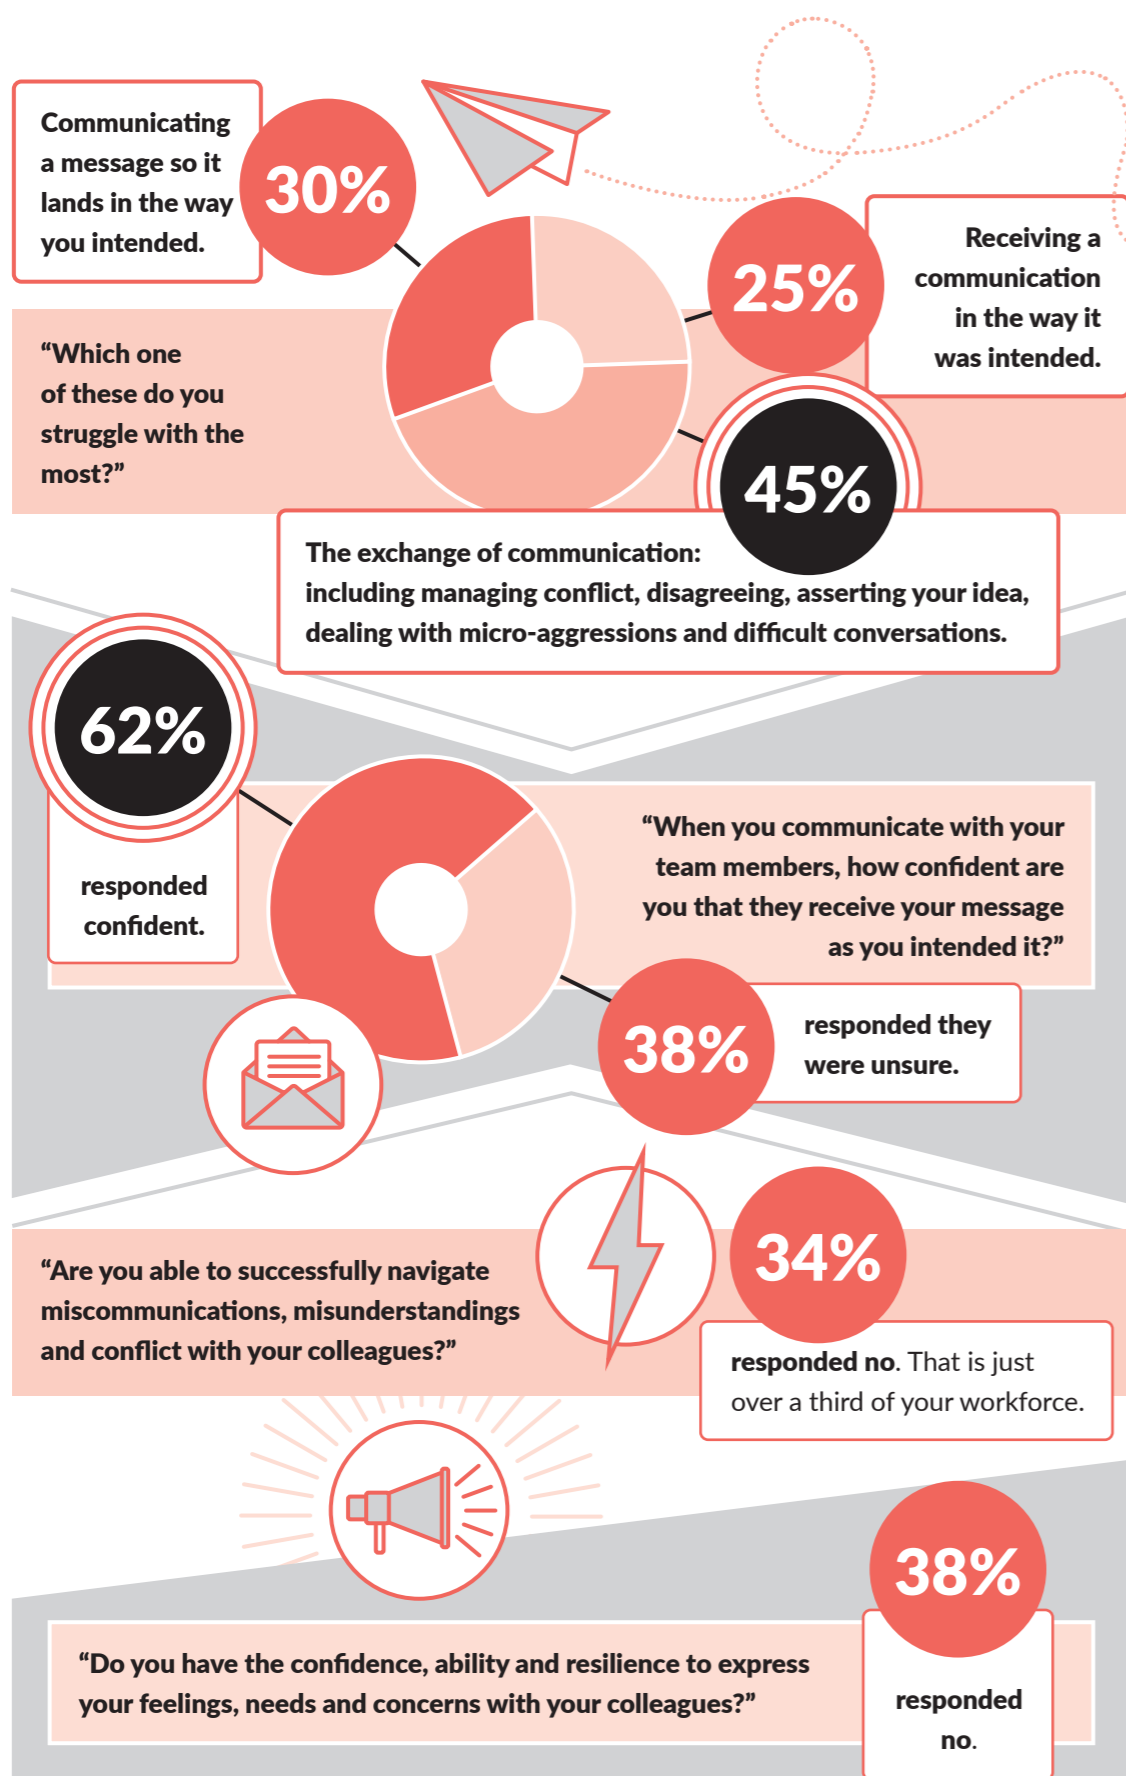

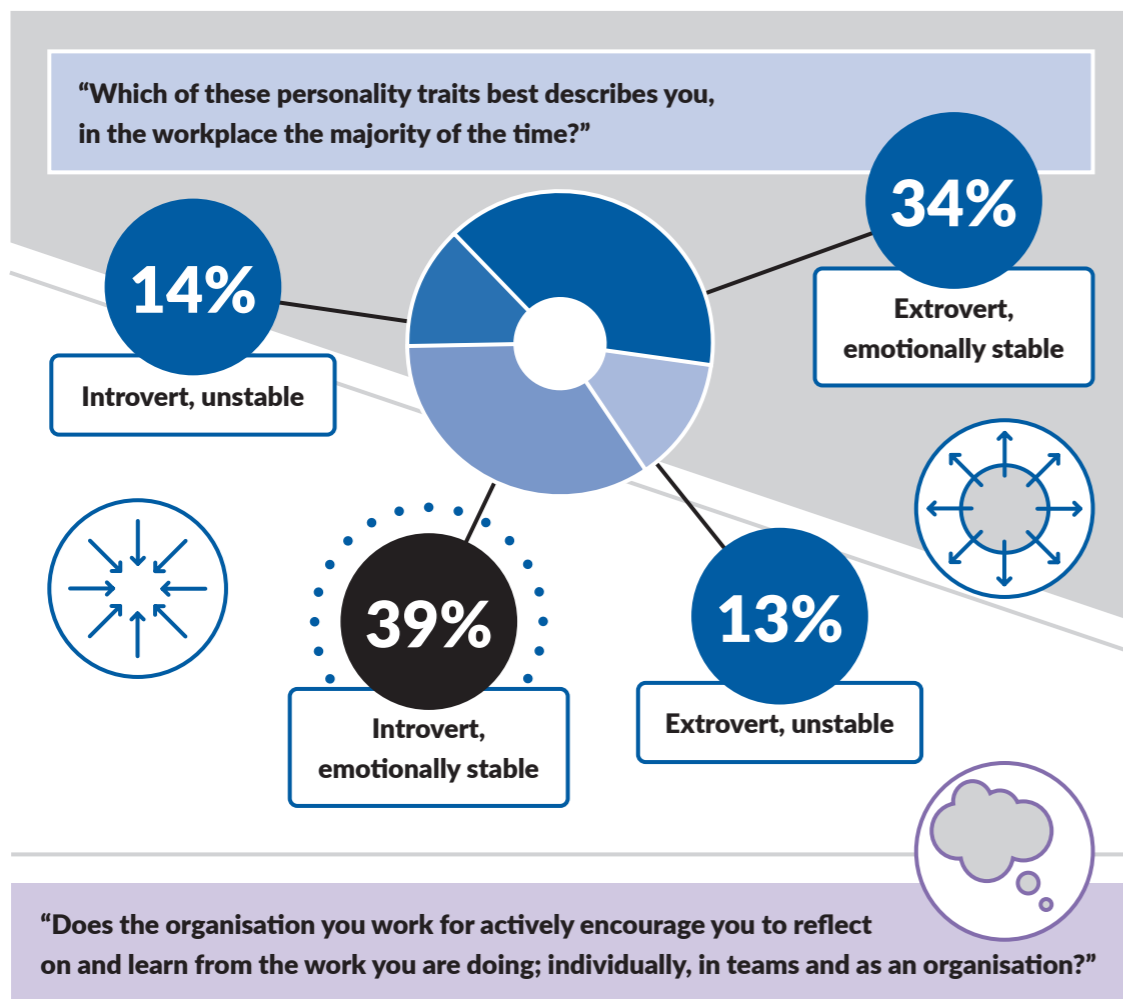

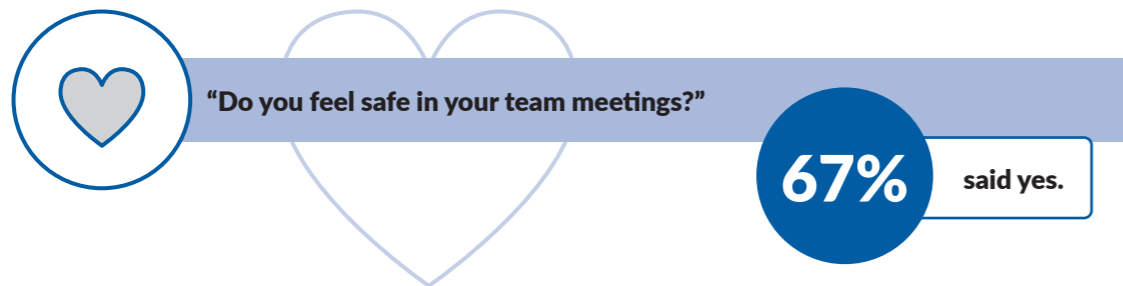

**87%** responded yes.

**“When you take negative work situations home with you, does it have a negative impact on you and the people around you at home?”**

**92%** responded yes. What happens at work is directly impacting on employees’ personal lives.
